### Audiophile "Plug & Play" turntable with easiest possible set-up and class-leading sound!

If you thought that a turntable set-up is complicated like rocket-science, Primary proves the contrary. This good sounding belt-drive deck offers the fastest possible installation process because it comes pre-adjusted out of the box. **No further set-up is needed.** Tracking force and anti-skating are carefully set. An acrylic dust cover is included. The turntable is available in matt black or matt white colour. Because Primary Phono USB comes with pre-mounted cartridge and built-in phono preamplifier with USB output, connection to both line-level input of your hifi system and PC/Mac easily can be used simultaneously! Open-Source recording software Audacity® is not based on a specific platform, is available for free and the perfect solution for recording and processing of your audio data.
